# Study Area: Barangay UP Campus, Quezon City

- Quezon City is a highly urbanized city located within Metro Manila.
- As of 2015, the city's population is 2,936,116 – the biggest among all Philippine cities.
- Brgy. UP Campus has a population of 45,520.

# Workshops with Community Stakeholders

- With community residents
- With children and youth
- With transportation sector: jeepney drivers and commuters

# Study findings

- 72.8% of the households do not have security of tenure on the land that they occupy
- 6.2% of its households do not have access to electricity.
- 25.2% of its households do not have their own water connection.
- No elementary and high school

# Output: Learning module on SDGs

- Target audience: elementary and junior high school students.
- Strategy: Incorporation of core Filipino values of *bayanihan* (cooperation), *pagtitipid* (prudence), and *malasakit* (empathy).
- Comes with a Teacher's Guide.

**Teachers' Guide and Sample Learning Module**

switchphilippines

Developed with the support of the European Union SWITCH-Asia Programme

# Challenges

- Need to engage new set of *barangay* officials who were elected in the May 2018 barangay elections.
- Strong possibility that city officials will also change with the coming 2019 elections.
- How to institutionalize initiatives with local governments despite the changing of the guards in the political arena.
