T4P WEBINAR SERIES: TOGETHER FOR PEACE RELEVANT THEMES AND ENGAGEMENT

Together for
PEACE
ร่วมกันเพื่อสันติภาพ

BACKGROUND

Together for Peace (T4P) initiative brings together UNESCO's current work to use Education as a tool for building positive peace by learning from past work on Culture of Peace, partnering with link-minded initiatives and tackling root causes that prevent peace. The Webinar series and Regional Dialogue that will follow are key to this by bringing together Member States and partners to ensure the initiative reflects their needs and addresses priorities for the region.

Building and sustaining positive peace in the Asia-Pacific requires a holistic approach to resolve and redress unjust structural social, political, cultural and economic factors to build stability, prosperity, harmony and progress. 'Positive peace' in this context is not just the absence of conflict, or 'negative peace' lacking durability, but the presence of justice and equality within and between societies. Ahead of the March 2021 Together for Peace Regional Dialogue, UNESCO Bangkok will be hosting a series of three webinars to explore different dimensions of positive peace and solicit engagement from National Commissions, development partners, other education policy-makers, teachers and school staff, and the general public. Based on three themes identified by the T4P Experts in September 2020, the webinars will provide important input to the T4P Regional Dialogue.

Webinar #1 "Transformative Pedagogies for Peace"

27 January 2021 11.00-13.30

Webinar #2 "Building Ethical and Sustainable Relations between Humanity and Nature"

16 February 2021 11.00-13.30

Webinar #3 "Living with Super Diversity"

9 March 2021 11.00-13.30
